

I think our neighbourhood is very convenient. We live in a block of flats. It is situated in Green Street. Next to it there is a post-office. Behind our block of flats there is a playground. I have to go across it to get to my school. We have a supermarket opposite our house. Mum says it saves her a lot of time. I like it because they have a small bakery and I love the smell of freshly baked bread and cookies. The supermarket is between two buildings. The one on the left is a hospital. The two-storeyed building on the right has a fitness centre and a cinema. The fitness centre is on the ground floor. It's very popular with our family. Twice a week I go to the swimming-pool, Mum has her fitness classes and dad does yoga there. The cinema is on the first floor. My friends and I often go there to see 3D films. You can see a bus stop in front of the fitness centre and a big car park behind it. There is a small park behind the hospital.
