

# KISS ME

## by Dermot Kennedy

If we could take a ...  
Eternalize this moment  
For the days when I don't ...  
When our love gets stolen  
'Cause there's no ...  
And I know time will take you far from me

Let this night invade my ...  
You're all I ... breathe  
Right beside the lake, I ... for you  
You burn for me

So kiss me the way that you would  
If we ... tonight  
... me the way that you would  
For the final time  
... may come, somewhere deep inside  
There's always this ... of you and I  
So just kiss me the way that you would  
If we died tonight, if we died tonight, yeah

All the deepest secrets  
All the ... moments  
Oh, I promise they'll be ... with me  
We've all been broken  
There's no ...  
But you carry it so gracefully

Let this night invade my ...  
You're all I ... breathe  
Right beside the lake, I ... for you  
You burn for me

So kiss me the way that you would  
If we ... tonight  
... me the way that you would  
For the final time  
... may come, somewhere deep inside  
There's always this ... of you and I  
So just kiss me the way that you would  
If we died tonight, if we died tonight, yeah

If we died tonight, yeah
