

1. State the change in the form of energy:

| Direction of oscillation | Changes in the form of energy           |
|--------------------------|-----------------------------------------|
| J $\rightarrow$ K        | _____ energy $\rightarrow$ _____ energy |
| K $\rightarrow$ L        | _____ energy _____ energy               |

2.
