 - ☐ four, five or six ☐ It doesn't matter. your idea _____
- Who usually asks for a date?
 - ☐ the man ☐ the woman ☐ It doesn't matter.

UNDERSTANDING THE TOPIC

Kevin and Stan are talking about dating.

Listen to their conversation and answer this question: *Who does Kevin think should pay on a date?*

Listen again and fill in each blank.

equal expensive smart terrible evening half taxi women

Stan: Hey, Kevin, how was your date with Joan last night?

Kevin: Oh, Stan, it was terrible. In fact, it was so bad that I don't think I'll see her again!

Stan: I'm sorry to hear that. What happened?

Kevin: We went to the movies, and then had some pizza. It wasn't too expensive. When I asked her to pay 2, she told me I was crazy. She didn't speak to me for the rest of the 3.

Stan: You what? You asked her to pay for the pizza?

Kevin: Not all of it — you know, I pay half and she pays half.

Stan: Kevin, why did you do that? You know that 4 don't pay for dates. We men pay.

Kevin: Look, Stan, you know that Joan and I have

had six or seven dates ... movies, dinner once, lunch two or three times. I even took her to that rock concert last month.

Stan: That must have been 5!

Kevin: You're right, Stan, super expensive! And that's the problem. I paid for everything, even the 6. She didn't offer to pay for anything. It isn't fair.

Stan: Well, I'm not sure.

Kevin: I am. I feel that the man and the woman should split the bill — you pay half and she pays half. Aren't men and women 7? So let's be equal on a date!

Stan: You know, maybe you're right.

Kevin: Stan, you are a very 8 guy!

WHAT DO YOU THINK?

Listen to the ideas of these four people. Complete each statement. Do you agree with the person? Circle your opinion.

Ken: On a date, _____ should pay.
agree disagree

Jin: When a man asks a _____ for a date, he should pay.
agree disagree

Meena: Whoever has more _____ should pay.
agree disagree

Luis: When a woman asks a man for a date, _____ should pay.
agree disagree
