

The layers of the atmosphere

The atmosphere is a shield of gas that surrounds the Earth.

The atmosphere has three layers:

TROPOSPHERE

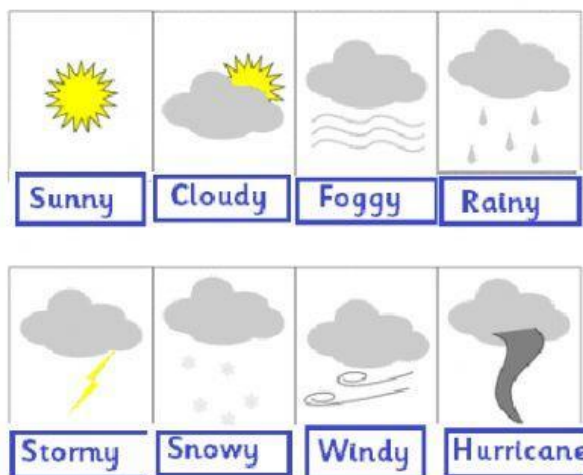

The weather happens in the troposphere. Most planes fly in the troposphere.

STRATOSPHERE

The stratosphere protects us from the Sun's rays.

IONOSPHERE

The ionosphere is the furthest from the Earth.

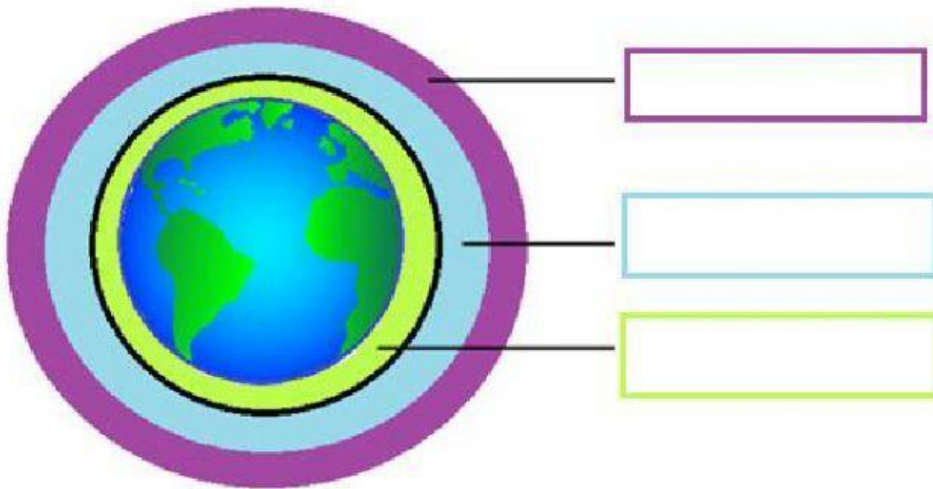

THE WEATHER

The weather happens in the troposphere.

There are many types of weather.

1. Label the layers of the atmosphere

2. Complete the sentences with the atmosphere's layers.

The weather happens in the _____

The _____ protects us from the Sun's rays.

The _____ is the furthest layer from the Earth.

3. Write the weather.

Cloudy

Snowy

Stormy

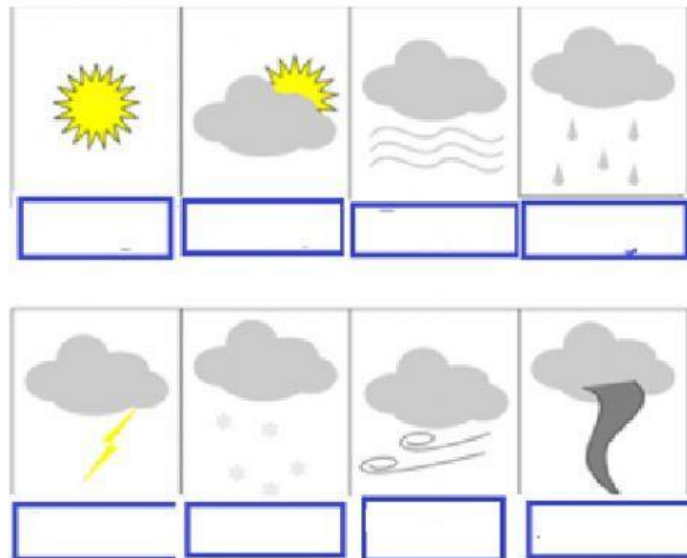

Hurricane

Sunny

Windy

Rainy

Foggy

4. True or false?

Planes fly in the ionosphere.

TRUE

FALSE

The atmosphere protects us.

TRUE

FALSE

The troposphere is the furthest from the Earth.

TRUE

FALSE
