

Your Dream Summer Job

What do you like doing? What job would you like to do in the future? Write a forum post below to let us know, and we'll match you to your perfect summer job!

Arty_Anna17: I love working with computers and I'm absolutely certain that it's what I want to do when I grow up. I get up early to study coding and programming before school every morning. I've designed a website to show my brother's artwork too, which I'm really proud of. I want to do more creative projects like this.

T-shirt_Tymon: I love art and design. I design my own T-shirts and sell them to my classmates. My designs are bright and fun and lots of people like them – especially sporty types! In the summer, I get very busy. It's difficult to remember what everyone wants and who has paid, so I write everything down. I make sure everyone gets their T-shirts on time. A good business has to be completely reliable!

Comic_Konrad: My passion is music. I play the piano and write my own songs. It makes me feel like I have achieved something totally amazing! When I'm not playing music or writing it, I'm studying it. I'm really enthusiastic! I want to take extra exams so I can start teaching it, too.

1. Anna is and .
2. Anna is that she wants to work with computers.
3. Anna enjoys being .
