

DNA Structure: Summary Notes

2) A nucleotide is made of three sub-units. List those below: 2) A nucleotide is made of three sub-units. List those below: 3) The name of the sugar in DNA is called 4) The backbone of DNA is made of and 5) The rungs of the DNA ladder are made of 5) List the 4 nitrogen bases found in DNA 7) In DNA the nitrogen bases form pairs. List the pairings below: pairs with	All nucleic acids are made of building blocks called
3) The name of the sugar in DNA is called 4) The backbone of DNA is made of and 5) The rungs of the DNA ladder are made of 6) List the 4 nitrogen bases found in DNA 7) In DNA the nitrogen bases form pairs. List the pairings below: pairs with	
3) The name of the sugar in DNA is called 4) The backbone of DNA is made of and 5) The rungs of the DNA ladder are made of 5) List the 4 nitrogen bases found in DNA 7) In DNA the nitrogen bases form pairs. List the pairings below: pairs with	A nucleotide is made of three sub-units. List those below:
3) The name of the sugar in DNA is called 4) The backbone of DNA is made of and 5) The rungs of the DNA ladder are made of 6) List the 4 nitrogen bases found in DNA 6 7) In DNA the nitrogen bases form pairs. List the pairings below: 6 7) In DNA the nitrogen bases form pairs. List the pairings below: 6 7) In DNA the nitrogen bases form pairs.	
3) The name of the sugar in DNA is called 4) The backbone of DNA is made of and 5) The rungs of the DNA ladder are made of 5) List the 4 nitrogen bases found in DNA 7) In DNA the nitrogen bases form pairs. List the pairings below: pairs with	
The backbone of DNA is made of and	
The rungs of the DNA ladder are made of	The name of the sugar in DNA is called
5) The rungs of the DNA ladder are made of	
5) List the 4 nitrogen bases found in DNA 7) In DNA the nitrogen bases form pairs. List the pairings below: pairs with	The backbone of DNA is made of and
5) List the 4 nitrogen bases found in DNA 7) In DNA the nitrogen bases form pairs. List the pairings below: pairs with	
7) In DNA the nitrogen bases form pairs. List the pairings below: pairs with	The rungs of the DNA ladder are made of
7) In DNA the nitrogen bases form pairs. List the pairings below:pairs with	List the 4 nitrogen bases found in DNA
') In DNA the nitrogen bases form pairs. List the pairings below: pairs with	
) In DNA the nitrogen bases form pairs. List the pairings below: pairs with	
pairs with	
pairs with	
pairs with
