

**Lembar Kerja Peserta Didik**  
**Bangun Ruang Sisi Datar**

Nama: \_\_\_\_\_

Kelas: \_\_\_\_\_ Nomor Absen: \_\_\_\_\_

**Petunjuk Kerja**

1. Bacalah materi mengenai bangun ruang sisi datar terkait tentang pengertian prisma dan limas, jaring-jaring prisma dan limas, serta luas permukaan kubus dan balok secara individu.
2. Kerjakan lembar kerja di bawah ini sesuai petunjuk di masing-masing soal.

| NO | Uraian Pertanyaan                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Penyelesaian                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
