Lesson 5

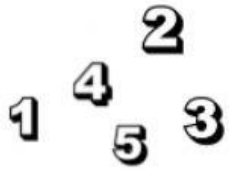

Read, listen and number

When it rains, we get water.

We need water to live.

It is important to use water in a responsible way.

These are some things we can do to save water:

Take a shower, not a bath. ■

Turn taps off properly. ■

Use spare water for plants. ■

Wash things in the sink, not under the tap. ■

Turn the tap off when you brush your teeth. ■
