

Lesson 5

Read, listen and number

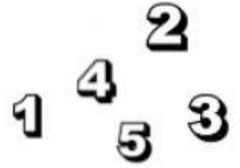

When it rains, we get water.

We need water to live.

It is important to use water in a responsible way.

These are some things we can do to save water:

Take a shower,  
not a bath.

Turn taps  
off  
properly.

Use spare  
water   
for plants.

Wash things in  
the sink,  
not under the tap.

Turn the tap off  
when you brush  
your teeth.
