

USED TO DO VS. BE/GET USED TO DOING

1

Presentation

be/get used to ...

We use the structure **be used to something / be used to doing something** when we say that something is normal for us, not strange or new:

I get up early every morning to go to work. It isn't something new or strange for me. **I am used to getting up early.**

"How can you live in this building? There is so much noise" "It's not a problem. **I am used to it.**"

Ann **wasn't used to** the hot weather in Greece. She is from Finland.

John is from England. He **is used to driving** on the left.

We use the structure **get used to something / get used to doing something** when we say that something **becomes** normal for us.

After living in Greece for a year, Ann **got used to** the hot weather.

Robert had always lived with his parents. Then he went to college and started to live alone. It was strange at first, but he **got used to it** in the end.

Sandra's new boss was very demanding at first, but she **got used to** him.

used to do

We say **I used to do something** when we talk about something we did regularly in the past, but do not do it now. In the negative we say **I didn't use to do something**:

I **used to live** in a large city, but now I live by the seaside. I **didn't use to go** swimming everyday.

Do not confuse this structure with **be used to doing something**.

Dialogue

A: What do you think of our cold weather? **Are you used to it** yet?

B: Yes, I **got used to it** very quickly. I **used to live** in Canada, you know.

2

Be/get used to

Complete the sentences below with *be used to* or *get used to* in a suitable tense.

1. When James moved to Sweden, it took him a few years to _____ the cold weather.
