

Subtraction with Regrouping -Worded Problems

Write the questions and answer them in your Mathematics notebook. Solve the problems using regrouping. That means you should set up your tens and ones columns similar to the one below (like we've been practicing).

| Tens | Ones |
|--|--|
| <div style="text-align: center;">□ □</div> | <div style="text-align: center;">□ □</div> |
| <div style="text-align: center;">- □ □</div> | <div style="text-align: center;">□ □</div> |
| <div style="text-align: center;">□ □</div> | <div style="text-align: center;">□ □</div> |

1. Liam had 54 marbles. He gave 18 marbles to Millie the Monster. How many marbles does Liam have left? Liam has _____ marbles left.
2. There are 23 cookies. There are 9 chocolate chip cookies. The rest of the cookies are oatmeal. How many cookies are oatmeal? _____ cookies are oatmeal.
3. Victoria has 72 bananas. There are 27 green bananas and the rest are ripe bananas. How many bananas are ripe? There are _____ ripe bananas.
4. Karissa has 65 dolls. Nia has 19 dolls. How many more dolls does Karissa have? Karissa has _____ more dolls than Nia.
