LG EG

DATE _____ NAME _____

Teacher: Sergey GROUP E1

Lesson topic: Introduction to electricity.
SCIENCE HOMEWORK (*Due in a week*)

1. Please learn the new words and revise the old ones.

<table>
<tr><td>Atom:
• Nucleus
• Electron
• Proton
• Neutron</td><td colspan="3"></td></tr>
<tr><td>Electric charge</td><td>+ or −</td><td rowspan="2">Attract</td><td rowspan="2"></td></tr>
<tr><td>Static electricity</td><td></td></tr>
<tr><td>Electric current</td><td></td><td>Repel</td><td></td></tr>
</table>

2. Multiple choice questions. [6]

1. All matter on earth is made up of:

2. Atoms are made up of:

3. The nucleus of an atom contains:

4. The protons have:

5. The neutrons have:

6. The electrons have:

3. What will happen with these charges? Type in one word. **[3]**
