The Theory of Everything
Biographical drama, 2014

The Theory of Everything is **about** the scientist Stephen Hawking. The film is **based on** a book, 'Travelling to Infinity: My Life with Stephen' by his wife, Jane Wilde Hawking. The film is **set in** England and starts in the early 1960s. It **tells the story of** Hawking's relationship with Jane, the diagnosis of his motor neuron disease and his success as a physicist.

I love the acting in this film. Eddie Redmayne **stars as** Hawking and Felicity Jones **plays the role of** Jane. My favourite character is Stephen Hawking because he is very clever and brave.

I think this is an ideal film for people who like true stories. It is a bit sad at times but the story is very interesting and there is a lot of action. I give The Theory of Everything
