

This song is about the 5th game in the FNaF series, Sister Location. Sister Location is about trying to avoid animatronics -known as the Funtimes- ending your game, while you are led to your death by another one, that goes by the name of Circus Baby.

Below The Surface Griffinilla ft. Emilia

**Deep beneath the surface
I can hear you scream
Let me, let me serve you
The way you deserve to be served
You're a maze of terror
Toxic and absurd
Beneath your best behavior
There's something that's unheard**

Chorus

**Below the surface
Deep beneath the waves
There's a place where no one knows
The secrets that we keep**

**Listen to the song
and choose the
correct answer.**

Fingers on my skin
Whispers in my ear
A memory of something
That never happened here
In the dark I see you
Like a phantom in my mind
You're a master of deception
A rare and twisted find

Chorus

Lurking in the shadows
Your power grows and grows
A mystery in motion
A story left untold
Beneath the mask you wear
There's a truth that's hard to bear
You're the puppet master
And we're all just playing here

Chorus

Outro:

Deep beneath the surface I can hear you scream Let me, let me
serve you The way you deserve to be served.
