# MY FUTURE INVENTION

## Writing

### My future invention

I think we will have special shoes like these in the future. They will look like trainers and they will be very comfortable. Everyone will be able to wear them, even children and old people.

The shoes will have wheels, like rollerskates, so they will help us to move around quickly. They will also lift us off the ground when we want to jump over things or fly to a different place.

These shoes are a great idea because we won't need bikes or cars to travel around the town. They will be good for the environment.

## MY FUTURE INVENTION
