As many of you are aware, we've recently been having a number of problems with the underground car park. In one case, an employee had her bag stolen from her car. As a result, we've decided to install CCTV in all parts of the car park and in the corridors around the offices.

By the end of the month, you will see these cameras around the building. The cameras are connected to TV screens at reception.

As many of you are aware, we've recently been having a number of problems with virus programs on the network. In one case, a hacker logged on and tried to read private employee information. As a result, we've decided to install a new software program and to start a new system of passwords.

By the end of the month, the new software will automatically scan your computer when you open it. You will also receive a new password every month to log on to your computer. Your department manager will give you this password on the 1st of every month. Please do not pass this on to anyone else in or outside of the company.
