Exercise 2. Read the blog posts by people with different jobs. Choose the correct words to complete the blog posts.

James, 23. The best part of my job is the children. They say so many busy/ clever/ easy things and know so much already. I often feel like I can see them learning. It is important to be very boring/ difficult/ kind to do this job and not to get angry. And, of course, you need to be able to talk in a way that young people can understand. I work very clever/ easy/ hard and I often have to take work home at the weekends and in the holidays. But it is worth it at the end of the school term when the children tell me how much they enjoyed being in my class.

Isabelle, 34. The part of my job that I enjoy the most is meeting new people and finding out about their health. Speaking to people is very awful/ busy/ important in my job, because I need to be able to explain things clearly to sick people and their families. This can be a clever/ difficult/ friendly job. When I first started working in the hospital, I was worried that I wouldn't be able to take care of everyone, especially when the hospital was very busy/ interesting/ kind, but the other staffs were very helpful, and I really enjoy working there now.

Gary, 28. The best part of my job is that I can spend so much time doing a sport I enjoy and get paid for it. I also have the chance to travel around the world and it's great that I can get to meet so many easy/ favorite/ interesting people. I love talking to fans and taking photographs with them. Of course, the job is not always fun. It makes me very tired and it can be very difficult, especially on the days when I don't play well. I have to play the best I can at all times and that isn't always easy/ kind/ popular.

Sarah, 19. My favorite part of the job is talking to people and helping them to decide what to buy. I prefer my job when the shop is busy and there are a lot of people to help. It can be a bit boring/ busy/ interesting when the shop is really quiet. I like making the clothes look nice so that customers will want to buy them. I also enjoy seeing the new clothes before anyone else and wearing the latest fashions. Of course, there are some difficult people, but most of them are really nice and awful/ favorite/ friendly.

Exercise 4. Read about subjects that are taught in schools

Most students learn subjects like English, Maths, Science, and Geography at school. However, some people don't think that these subjects are so useful for students. They think that these subjects will not help students to get a job later after they leave school. So, some schools have started to teach new subjects to their students, which they think will be more useful to them in the future.

Some schools want their students to study subjects which they think will be more helpful for them to get a job in the future. One school in the United States has decided to teach their students how to do different things using computers. Their students are learning how to write computer programs and how to design mobile phone apps. Their students enjoy these new subjects and would like to have more lessons to improve their computer skills.

Other schools want their students to learn more daily life skills. A school in the UK is teaching their students about what they should eat to stay healthy and how to cook healthy meals. In the past, most children learnt how to cook at school, but today, many schools have stopped teaching cooking, so that they can spend more time on subjects like Science and Maths. However, this UK school teaches cooking as well as other skills such as how to save money.

Finally, learning how to speak and write well is very important for both work and family life. Some people think that children do not learn these skills properly in school, because they spend so much time studying for tests. Therefore, a school in Singapore has started teaching

their students how to speak and write well, and how to speak in a good way to young people and adults.

English is boring. Children may also feel worried about taking tests. If they fail the test they might think that they are not good at learning.

However, other people think that it is important for children to take a lot of tests. They think that tests can help teachers see if children understand the subjects. They also think that teachers can make tests fun for their students by playing games to help them prepare. These people think that if children have a test they will pay more attention to their lessons and they will do more work at home and at school.
