My _____ are aching
And your back is pretty _____
And we've drunk a couple _____, babe
And set our grief aside
The _____ say it's doomsday
The button has _____ pressed
We're gonna nuke each other up _____

And here it is, our _____ night alive
As the Earth burns to the _____
Oh boy, it's you that I lie _____
As the atom bomb locks in
Oh boy, it's you I watch _____ with
As the world, as the world _____ in
You've put your final _____ on
I paint my fingernails
Oh, we're going out in _____, babe
And _____'s on sale
We creep up on extinction
I pull your _____ right in
I weep and say _____, love
While my organs pack it in
And here it is, our _____ night alive
And as the earth burns to the _____
Oh girl, it's you that I lie _____
As the atom bomb locks in
Oh girl, it's you I watch _____ with
As the world, as the world _____ in
