

Worksheet: Climate

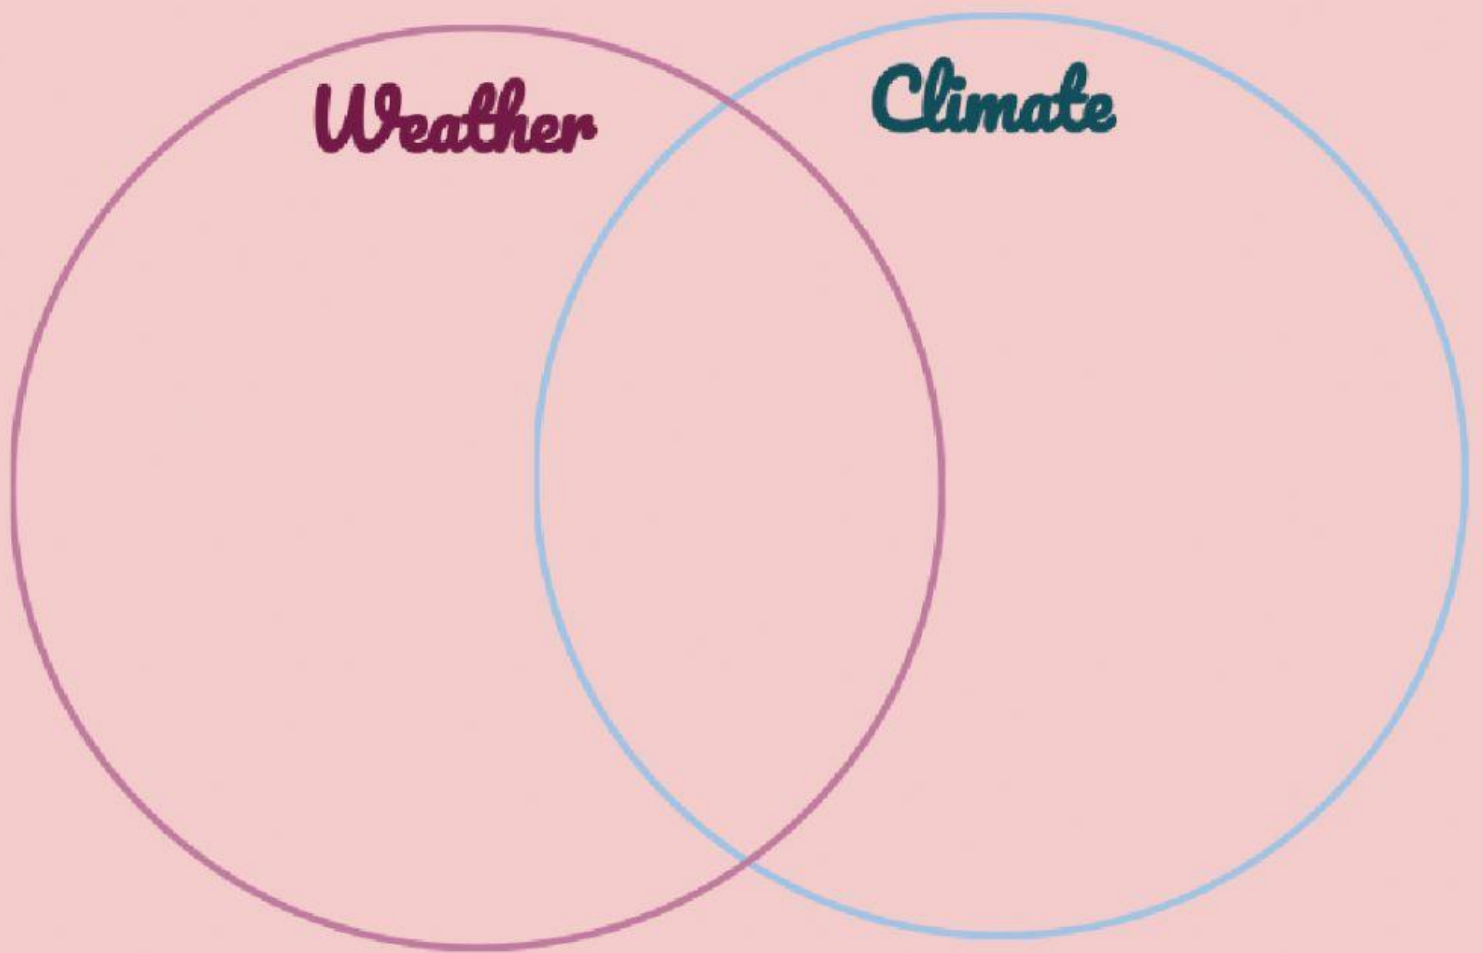

Name:

Section:

- I. **Video Lesson:** Watch the video carefully and answer the following questions given below. Make sure to write down important information.

- II. **Venn Diagram:** Write down the similarities and differences between climate and weather, after that summarize what you have written in the venn diagram.

Make a short summary of the venn diagram

A large, empty rectangular box with rounded corners and a yellow background, outlined in orange, intended for a student to write a summary of the Venn diagram.

III. **Reflection:** In your own words, answer the questions....

How does climate and weather affect your daily activities?

What should you do to ensure that you are always prepared for emergencies?
