

SENSE OF SIGHT

- Drag and drop the different parts of the eye.

RETINA	PUPIL	EYEBROW	IRIS
EYELASHES	EYELID	LENS	

- What is the function of the eyebrow, eyelashes and eyelid? Choose the correct option.

- ☐ To send the information to the brain.
- ☐ To protect our eyes from dust and sweat.
- ☐ To reflect the light.

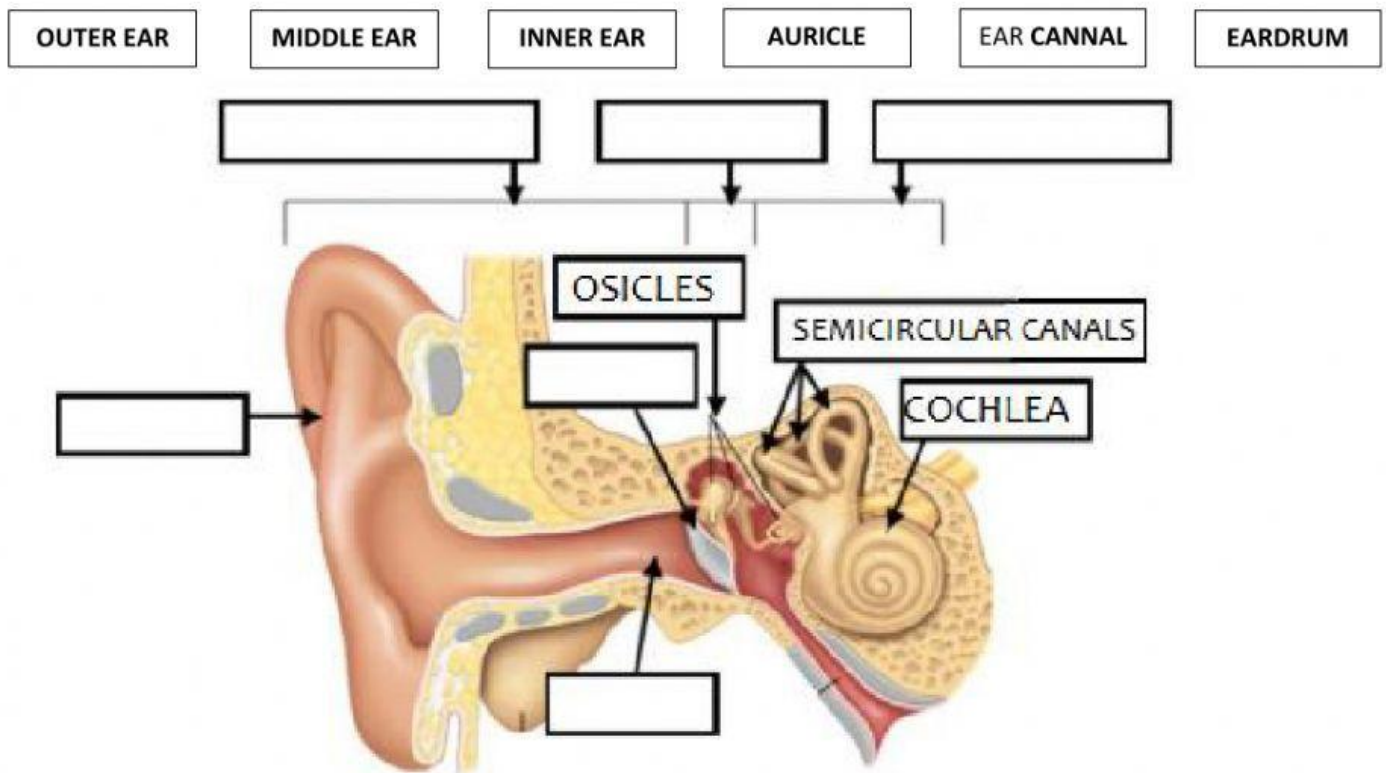

- Drag and drop the process of vision in the correct order.

1.	2.	3.	4.

A – The retina sends the information to the brain.	B- Light reflects off an object and enters the eye through the pupil.	C- The brain reads the signal and turns the image right side up.	D- The light goes through the lens and makes an image on the retina at the back of the eye. The image is upside down.

SENSE OF HEARING

➤ Drag and drop the different parts of the ear

➤ What is the function of the earwax? Choose the right one.

- ☐ To protect your ears from dirt and infection.
- ☐ To send the information to the brain.
- ☐ To protect our eyes from sweat and dust.

➤ Drag and order the process of audition in the correct order.

1-	2-	3-	4-
The brain reads the signals and tells us what we can hear.	This makes the liquid in the inner ear move and send signals to the brain.	Sound waves enter through the outer ear.	The waves hit the eardrum in the middle ear and make it vibrate.
