lungs

cars

air

breathe

light bulbs

face

Exercise 1: Multiple Choice

1. What is PM2.5?

- A) A type of food
- B) A type of air pollution
- C) A type of clothing

2. Where do PM2.5 particles come from?

- A) From the ocean
- B) From cars, factories, and wildfires
- C) From outer space

3. Why is PM2.5 pollution dangerous for kids?

- A) It makes their hair turn blue
- B) It can make it hard for them to breathe
- C) It gives them superpowers

4. How can we protect ourselves from PM2.5 pollution?

- A) By wearing a hat
- B) By staying indoors when air quality is bad
- C) By eating healthy foods

5. How can we help reduce PM2.5 pollution?

- A) By using public transportation, walking, or biking instead of driving a car
- B) By using energy-efficient light bulbs and appliances
- C) By playing video games all day
