1	2	3	4	5

F. Match topics 1 - 7 with texts A - F. Use each number only once. There is one extra topic in the assignment.

Chocolate

1. the chocolate consumed today is made
2. that chocolate, eaten in moderation
3. central and southern America for
4. of the world's most popular flavours
5. hand contains no cocoa solids and
6. cacao seeds are intensely bitter and have
7. many countries worldwide at

Chocolate is made from a number of raw and processed foods produced from the seeds of tropical cacao trees. Cacao has been cultivated in **A** ___ last 3000 years.
For most of this time it was made into a drink called, in translation — "bitter water". This is because **B** ___ to be fermented to develop a palatable flavour. After fermentation the beans are dried and roasted and the shell is removed to produce cacao nibs. These are then ground and liquefied into chocolate liquor.
The liquor is then processed into cocoa solids or cocoa butter. Pure chocolate contains primarily cocoa solids and butter in different proportions. Much of **C** ___ with added sugar.
Milk chocolate is sweetened chocolate that additionally contains either milk powder or condensed milk. White chocolate on the other **D** ___ is therefore not a true chocolate.
Chocolate contains theobromine and phenethylamine which have physiological effects on the body. It is similar to serotonin levels in the brain. Scientists claim **E** ___ , can lower blood pressure. Recently, dark chocolate has also been promoted for its health benefits.
But pet owners should remember that the presence of theobromine makes it toxic to cats and dogs. Chocolate is now one **F** ___ , although 16 of the top 20 chocolate consuming countries are in Europe. Also interesting is that 66% of world chocolate is consumed between meals.

G. Listen to the snippets of the songs and fill in the gaps with the missing words and phrases from the list below. If necessary, you can use some words more than once.
