- C Where are you going?
- 2 You are not going to be able to attend a lecture. Inform your friend.
- A Probably not.
- B I'm sure I'll be there.
- C I won't be there.
- 3 Your friend asks you what you are doing at the weekend. How do you respond?
- A I don't think so.
- B I don't really know.
- C Not really.

## Reading

**7 Read the text below, from which four sentences are missing. Complete the gaps (1-4) with appropriate sentences (A-E). Write appropriate letters (A, B, C, D or E) in the gaps. One sentence is extra and does not match any of the gaps.**

### Technology's Toddlers

Children today have access to many different forms of technology but most companies design their products for adults, or do they? One company recently launched a product for much younger people. **1)** ..... The phone is very simple. **2)** ..... It has no Internet access or text messaging service and parents decide which numbers their child can call. Some people believe that targeting children this young is dangerous. **3)** ..... They also believe that using mobile phones could damage the health of very young children. However, the company producing the phone claims it is a safe way for parents to keep in touch with their children. **4)** ..... So what do you think? How young is too young to have a mobile?

- A** It allows them to contact their children without worrying about the other dangers that come with mobile phones.
- B** They developed a mobile phone for 4 year olds.
- C** They say that it is just a way of getting them hooked on technology at an early age.
- D** Buying a mobile for their children at this age could cost parents more than just money.
- E** It doesn't even have a screen.
