A) Read the passage and choose the best answer a, b, c or d.

Languages

My name is Maria, and I am Mexican. I speak Spanish and English fluently. Spanish is my native language, and I learned English when I was in high school. I enjoy speaking both languages because it allows me to communicate with more people. I also think that being bilingual is very useful in today's life.

One of the things I like about Spanish is its rich culture and history. Spanish is spoken in many countries, including Spain, Mexico, and most of Central and South America. Each country has its own culture, but they all share the Spanish language. Also, English is spoken in many countries. But, unlike Spanish, the culture and traditions of those countries are similar.

Overall, I feel very lucky to be able to speak both Spanish and English. It has opened many doors for me and allowed me to connect with people from all over the world.
