

Chapter 5 – Climate Change

Figure 4 below shows how greenhouse gases trap solar energy close to Earth's surface.

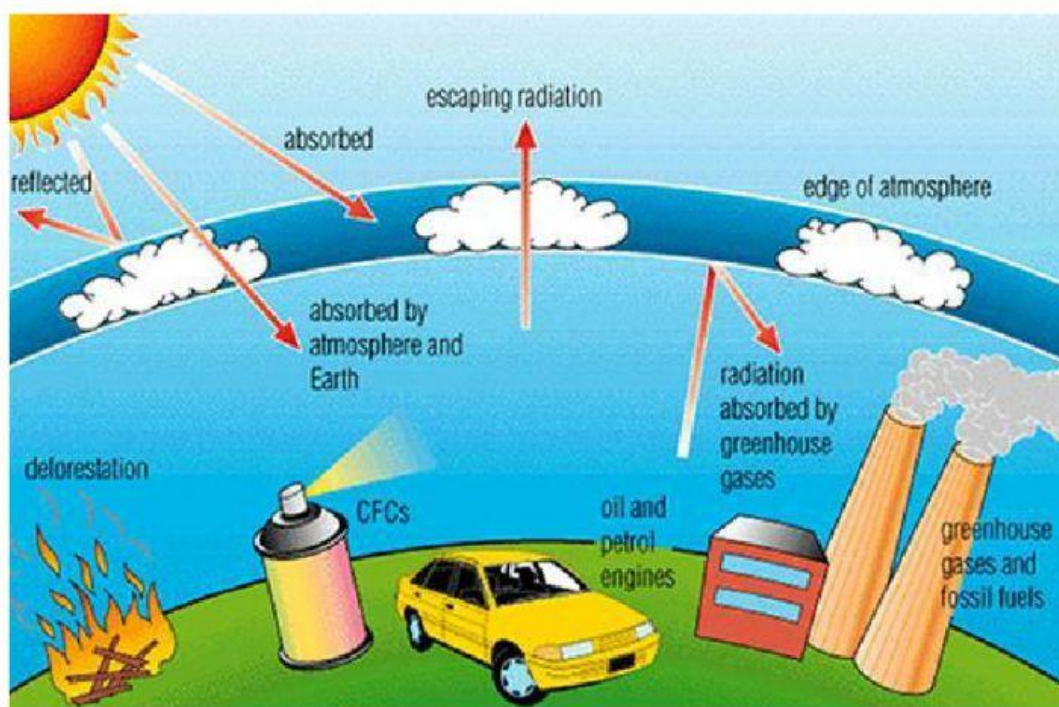

Figure 4

1. List three signs of climate change. [3 marks]
 - a. _____
 - b. _____
 - c. _____

2. Greenhouse gases cause climate change. Describe how greenhouse gases led to climate change. [4 marks]

3. List down three impacts of climate change. [3 marks]
 - a. _____
 - b. _____
 - c. _____

4. List three ways minimize impacts of climate change? [3 marks]

- a. _____
- b. _____
- c. _____

5. Suggest any two sources of alternative energy. [2 marks]
