

ECO-FRIENDLY TRENDS

FILL THE GAPS

1. To reduce carbon footprint, we should cut **green** on non-essential air travel and invest in teleconferencing technology.

2. Instead of throwing away food **leftovers**, why not try a new recipe or donate them to someone in need?

3. The **biodegradable** packaging is better for the environment than the plastic one.

4. Our **consumption** of electronics has increased dramatically in the last decade.

5. The garbage from the city ends up in the **landfill** outside the town.

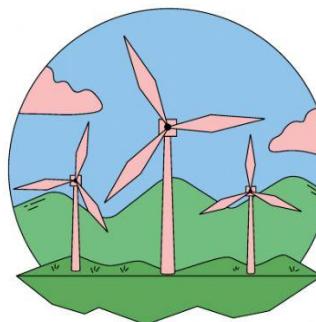

6. We should **reduce** our plastic usage to help the environment.

7. We should use more **renewable** energy sources like solar and wind power.

8. We need to find **sustainable** ways to use resources for future generations.

9. My dream **vehicle** is a convertible sports car.

10. We should try to reduce our carbon **footprint** by using public transport or walking whenever possible.
