

**Student's name:** \_\_\_\_\_

**Score:** \_\_\_\_\_ / 15 pts - \_\_\_\_\_ %

Listen to an interview with *Monica*, a researcher into the psychology of money, and answer the questions below.

**A. Listen and tick the points *Monica* discusses.** \_\_\_\_\_/6pts

<input type="checkbox"/>	1. Most people who get a lot of money spend it all quickly.
<input type="checkbox"/>	2. We enjoy hearing stories about people who won the lottery and then lost of their money.
<input type="checkbox"/>	3. Suddenly having lots of money usually has a negative effect on you.
<input type="checkbox"/>	4. Most people feel much happier just after they win money.
<input type="checkbox"/>	5. In the long term, being rich doesn't always make you happier.
<input type="checkbox"/>	6. It's better to spend money on things you can own, like houses and cars.

**B. Listen again and complete the spaces with one or two words from the audio.** \_\_\_\_\_/5pts

- After winning the lottery and making some bad decisions, the Griffith family ended their \_\_\_\_\_.
- Some people like to think that winning the lottery can result in \_\_\_\_\_ as a way to feel better for not winning.
- According to a study, lottery winners spend a considerable amount of money during the first \_\_\_\_\_.
- According to Monica, over the \_\_\_\_\_, being wealthier does not have an impact on your happiness.
- Investing the money in \_\_\_\_\_ rather than on material things can actually have a better impact on lottery winners.

**C. Listen again and select right options.** \_\_\_\_\_/4pts

1. We learn from the Griffiths' story that...	a. they were very happy at first.. b. stories like theirs do happen, though occasionally. c. what happened to them is probably not a direct result of winning the lottery..	2. According to a study done in Britain, ...	a. only 2-3% of the people who win the lottery spend all their money throughout their lives. b. people who win the lottery don't tend to save that money. c. most people spend all their money in things that make them happy.
3. Research done about the negative side of winning the lottery has concluded that...	a. it doesn't affect your emotions. b. it can affect you positively or negatively. c. it mostly has a negative effect on the winner.	4. If you're already happy, then winning the lottery...	a. will make you happier. b. will make you happier as long as you spend the money. c. won't make you happier.
