Movie maker websites

If you want to make your own movies at home, then **(1)** ___go___ to a movie maker website and find out what to do.

These websites have everything you need to create your own cartoon movies. You **(2)** c_____ choose from three basic characters, and there are different sections for action clips, feelings and places. First of all, you **(3)** h_____ to choose a character and a place, and then the frame appears in your movie. **(4)** I_____ you want, you can change the place, character and action clips for every frame, then build up your movie. When you have enough picture frames you can **(5)** d_____ them to your own computer and watch your movie. My favourite part of the website is the sound effects. You can add noises like 'boom' or 'crash'. Yesterday, I **(6)** m_____ a fantastic movie called 'The Big Boom'. The characters ran after each other to different places. In the end, everything exploded, but the crazy cat escaped!
