

ErasmusBlog

The city: London's a great city, it's so big. There are interesting places to visit and there are many restaurants and theatres, I'm never bored!

Where I live: I have a room with a British family here. They're very nice. Mr Henderson's a chef and Mrs Henderson's a nurse. They have two children, Zoe and Mark. Zoe loves playing the piano and Mark likes computer games. Their house is near the underground station, it only takes about 25 minutes to get to university.

What I do here: My course is very interesting. My favourite class is North American History. After we finish, the teacher often goes to a café with us to talk more about our studies. It's great fun! I want to study more history. I go back to Hungary next year.

Who I know: I have a lot of friends on my course – they're so friendly. My best friend's Antonia. She's from Guadalajara in Mexico. She's 22 and she loves going to the theatre with me. We'd like to see a Shakespeare play when we're in London, but the tickets are really expensive.
