

STP - Week 1 - Math Assessment

1. Find the missing numerators or denominators:

4
□

□
9

6
□

1
□

2. Complete:

A. Three-sevenths: _____

B. One-twelfth: _____

C. Write in word form: $4/8$ _____

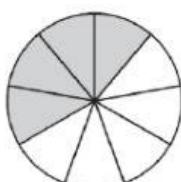

D. Write in word form: $1/11$ _____

E. Write in word form: $3/9$ _____

F. Write down the fraction in which the numerator is 10 and the denominator is 11 _____

G. Write down the fraction in which the denominator is 9 and the numerator 8 _____

3. Complete:

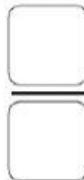

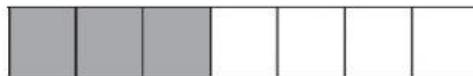

The whole is divided into _____ equal parts.

_____ parts are shaded.

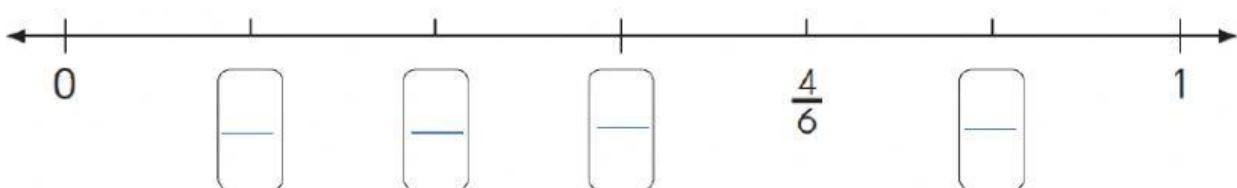

_____ out of _____ parts are shaded.

Fraction shaded = _____

4. Write the fraction that shows the fraction part of the diagram:

5. Complete the number line:

6. Find each equivalent fraction:

$$\frac{4}{6} = \frac{8}{\square}$$

$$\frac{3}{4} = \frac{\square}{12}$$

$$\frac{2}{3} = \frac{6}{\square}$$

$$\frac{3}{5} = \frac{\square}{20}$$

7. Write each fraction in simplest form:

$$\frac{6}{10} = \frac{\square}{\square}$$

$$\frac{8}{10} = \frac{\square}{\square}$$

$$\frac{3}{12} = \frac{\square}{\square}$$

$$\frac{9}{12} = \frac{\square}{\square}$$
