

What are you doing for Easter?

Read the tasks and match the names with the statements.

Anna

Easter is a special time for my family. My grandmother is from Ukraine and lets me help her make "Pysanky" eggs. We take everything out of the egg. Then we make designs on them with wax. We prepare a dye, heating it with a candle, and color the eggs. The eggs are so beautiful and I love giving them to friends and family.

Alice

I'm lucky because there is going to be a special museum exhibit of Faberge eggs this Easter. Faberge eggs were made by a famous jeweler named the House of Faberge. They were produced for the Russian Tsars and they are wonderful. I am interested in art and jewelry-making so this will be a very special day for me!

Lisa

Chocolate is an important part of Easter so my school has scheduled a tour to a chocolate factory. My class will visit the factory a week before Easter. We will be able to see just how they make chocolate. I have to wear a hair net but we will have free chocolate samples at the end of the visit. I'm so excited!

Choose the correct answer.
