How To Stay Safe During Bad Weather While Traveling

Even with adequate preparation, some weather conditions are just out of one's control but these tips can come in handy in such situations.

Traveling And Weather

All travel-related activities depend on the weather. Without good weather, one cannot do things like hiking, flying, swimming, mountaineering, and many more. During the preparation process, it is always important to study the weather of a place before visiting to avoid being stuck in dangerous weather conditions. But even with adequate preparation, some things are just out of hand. Following these tips, one can escape the fury of nature and stay safe.

Thunderstorm And Lightning

Besides causing up to 33 yearly deaths in the United States, Thunderstorms and Lightning can be the scariest thing one experiences. Those _____claps and continuous flashes can become a _____ and even a huge threat to the lives. But _____, when caught up in a lightning storm you must quickly go to a safe place. Get out of any boat and stay away completely from the water. Also, avoid staying on mountaintops, beside tall objects, under isolated trees, or in an open area's. Go indoors or enter a car. All electrical appliances should be avoided as well.

Extreme Heat

Heat waves are common nowadays. When in a _____ that experiences extreme heat, one must _____. The hours between 11 AM and 3 PM are the hottest part of the day and are best avoided so as not to get a _____. One should ensure to always drink water. Wearing loose _____ clothing and hats and constantly taking showers or going to cool places is also helpful.

The Danger of High Water

_____ can cause a lot of damage to infrastructure while also posing dangers to those on the road. To avoid being carried away by the rushing water, the first thing to do is move to higher ground. One should avoid staying in the way of the flowing water or walking in it as there are so many harmful things that flow with the water. One should move to a higher floor and stay there until help comes. It is also important to watch out for unstable power lines and _____ electrical wires as well as unstable buildings, moving vehicles, and other heavy or hazardous things on the way.

Hurricane To Hit

A Hurricane is one _____ weather condition no one wants to ever get caught up in, especially travelers. Checking the local weather _____ before visiting is a way to avoid this. If you are already caught up in the strong winds, stay indoors at all times and shut windows and doors. Closely follow the disaster on radio or TV to know if leaving the area should be the next move or to remain indoors. When it is safe to come out, one should avoid fallen electric poles and other dangerous objects destroyed by the hurricane.
