There are aliens _____ , somewhere. I strongly believe this. Not sure what they look like, though. I _____ they are green, like they are in science fiction movies. I also don't think they look like us. But I'm _____ . I just don't think we'll ever _____ find any. They live too far away. If you think about _____ , there has to be aliens out there. All a planet needs is to be warm and have water and _____ . There are billions and billions of planets in the universe, so there _____ millions and millions that have life. Alien life. It's also likely that _____ aliens are much more intelligent than we are. I wonder what _____ really intelligent aliens visited Earth. What _____ them?
