Posts

Our class is studying minibeasts in Science. We're looking for butterflies, ants and bees in a field. Andy has got a magnifying glass. It's amazing!

 Charlie 14th April

This is Lisa. She's in our school garden. She's planting the flowers. There are also beans, strawberries and apple trees in the garden. It's my favourite place!

 Daisy 2nd May

This is a photo from our Art lesson. We're making a scarecrow for the garden. His name is Billy. We're using old clothes. We need a scarecrow because the birds want to eat the raspberries!
