

Label each angle as acute, obtuse, or right.

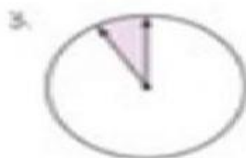

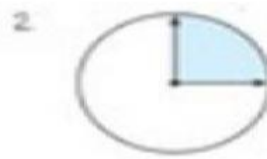

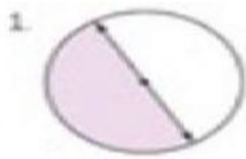

Classify each angle as *right*, *acute*, or *obtuse*.

Write the measure of each angle in degrees and as a fraction of a full turn.

Write the measurement of each angle as a fraction of full turn:

Classify each angle **Acute, Right, Obtuse or straight** and write if it greater than $\frac{1}{4}$ turn , less than $\frac{1}{4}$ turn, $\frac{1}{4}$ turn or $\frac{1}{2}$ turn .[please follow up the instruction blow to get the full mark](#) ,first one is done for you

Type of angle	obtuse
Measure by turn	Greater than $\frac{1}{4}$ turn
