

DESPEJE DE FORMULAS

Arrastre las letras en la posición que corresponda para despejar la letra indicada frente a cada formula.

Ecuación
$a = \frac{v}{t}$

$$t = \frac{\square}{\square}$$

$$U = \frac{1}{2} kx^2$$

$$k = \frac{\square \square}{\square}$$

$$p = \frac{F}{\pi * r * L}$$

$$L = \frac{\square}{\square \square \square}$$

$$x = \frac{1}{2} gt^2$$

$$t^2 = \frac{\square \square}{\square}$$

$$V = \pi r^2 h$$

$$h = \frac{\square}{\square \square}$$

$$v = v_0 + at$$

$$a = \frac{\square \square \square}{\square}$$

$$ma = mg - bv$$

$$b = \frac{\square \square \square \square \square}{\square}$$

$$x = v_0 t + \frac{1}{2} a t^2$$

$$v_0 = \frac{\square \square \square \square \square}{\square}$$

$$E = \frac{1}{2} m v^2 + m g h$$

$$h = \frac{\square \square \square \square \square}{\square \square}$$
