Learning objective – To construct a Box Plot for given data set

2. Find the median and the measures of variability for the box plot shown. Then describe the data.

Average Daily Temperatures for One Month

Median = _____

Q1 = _____

Q2 = _____

IQR = _____

Maximum value = _____

Draw a box plot for each set of data.

(65, 92, 74, 61, 55, 35, 88, 99, 97, 100, 96)

Box range = _____

Median = _____

Median is closer to _____

Outliers = _____
