We can recycle most things - clothes, shoes, phones, computers, televisions, cars, cans, paper, bottles, and batteries. There are a few things that we can't recycle - but not many!

We can recycle most paper and card to make new paper. We can recycle metal from many different things, like cans, cars, and computers. It's hard to get new metal, so it's good to recycle old metal.

We can recycle most types of glass. It's good to sort the glass into different colors - green, brown, and clear glass. Factories can only make new clear glass when 99 % of the recycled glass is clear.

There's a recycling symbol on a lot of the things that we can recycle. There's sometimes a symbol on the things that we can't recycle.

We have to recycle different types of plastic in different ways. The recycling symbols on plastic help people to sort the different types of plastic.

What Can You Do?

You can 2 and 3 your waste. Make things from waste! Look at your 4 and see what you can do with it. On the Internet, you can find lots of great ideas, for example, how to make games, clothes, and bags.

5 can be easy! At h 6, you can use recycling boxes. Or maybe you can use different wastebaskets for different types of waste. At s 7, you can recycle lots of things, too. When you are 8, you can pick up waste for recycling, but be careful – don't pick up dangerous waste.

Remember! We should all reduce, reuse, and recycle our waste!
