

Read the text and choose the correct heading for each paragraph below.

## All About Chocolate

Heading 1: \_\_\_\_\_

Chocolate that we eat starts with cacao trees. Cacao trees grow in a warm climate like Central and South America, Africa or parts of Asia. This tree produces cocoa beans. Cocoa beans eventually become chocolate.

Heading 2: \_\_\_\_\_

At the chocolate factory, the beans are cleaned and then they are roasted for up to 2 hours in large rotating drums. The cocoa beans tumble in these drums like clothes in a clothes dryer. As they dry, the beans turn to a rich brown color.

Heading 3: \_\_\_\_\_

After roasting, the shell of the cocoa bean is removed and the inside of the cocoa beans are melted to form a chocolate liquid. When chocolate liquid is molded and cooled, the product is called unsweetened or bitter chocolate.

Heading 4: \_\_\_\_\_

Add sugar, cocoa butter, and vanilla flavoring to unsweetened chocolate and you have a chocolate candy. If you also add milk, the product becomes milk chocolate.

Heading 5: \_\_\_\_\_

Finally, it is molded into milk chocolate candy bars and also in to chocolate powder form which many people buy from the market.
