

5th level Natural Science

UNIT 4: Ecosystems

1. Let's think about a POND (una charca) ECOSYSTEM

Select ALL elements that are a part of the pond ecosystem.

birds

trees

drinking

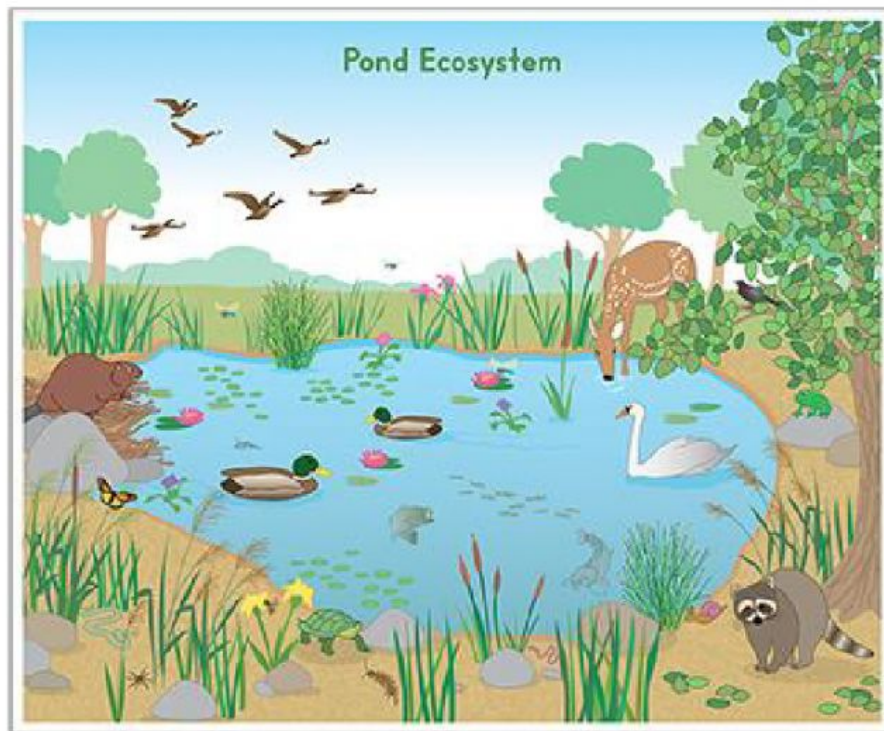

raccoons

hunting

fishing poles

fresh water

air

2. Biodiversity is the variety of living things. Where do you think there is greater biodiversity, in the rainforest or in the dessert? Select the correct photo.

GOOD JOB!!!
