

SCHOOL YEAR: 2019-2020
SECOND QUIMESTER UNIT 8
SUBJECT/ AREA: LANGUAGE

GRADE: SEVENTH
TEACHER: Lorena Varela

1. Label the descriptions.

pollution global warming deforestation overpopulation trash

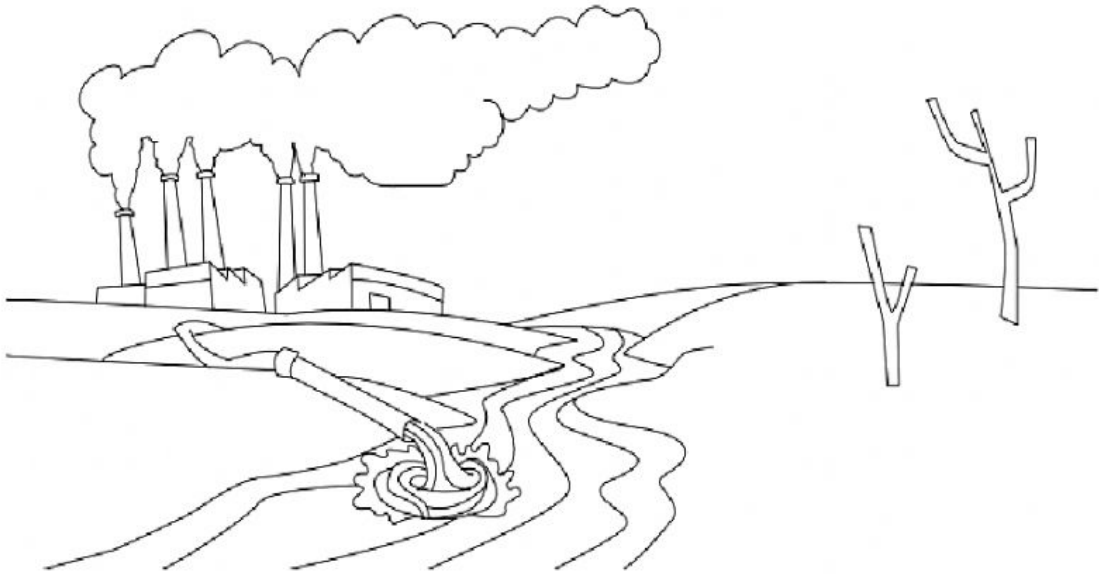

1. _____ "The rain forest is becoming smaller and smaller each year."
2. _____ "There is too much trash because there is nowhere to put it."
3. _____ "There are more hurricanes now than when I was a child."
4. _____ "More people are living in my city. There is not enough water."
5. _____ "Factories and cars are the reason for this problem."

2. Match the sentences with the environmental problems.

- | | |
|---|--------------------|
| 1. There's too much waste and too few places to put all of it. | deforestation |
| 2. There are seven billion people on Earth right now. There are too many people in many big cities. | endangered species |
| 3. Specific kinds of animals and plants are in danger of disappearing forever. | global warming |
| 4. The temperatures on Earth are getting higher. | overpopulation |
| 5. People cut down more trees than they plant; forests disappear. | trash |

3. Circle the correct words.

1. If we all planted trees, we *would help* / *helped* reduce the greenhouse effect.
2. If you *separate* / *separated* your trash, it would be easier to recycle.
3. If people were more careful with water, they *will save* / *would save* money and help the environment.
4. If we continued cutting down trees, we *needed* / *would need* to plant more of them, too.
5. If people *used* / *would use* their cars less, they would save energy.

4. Complete the sentences using information from the box.

cut down fewer trees	easier to recycle	pollute less
save water	use less electricity	

1. If you recycled paper, companies _____.
2. If you took shorter showers, _____.
3. If you turned off the lights when you leave a room, _____.
4. If you took the bicycle instead of the car, _____.
5. If you separated trash, materials _____.

5. Read and copy the correct title for each paragraph.

Use green school supplies Find a green way to get to school
Play fewer video games Start an organic garden at school
Turn off the water when possible

1. _____
Buy notebooks made of recycled paper. If this year's backpack or schoolbag is still good, don't buy a new one for next year. You spend some more money on some products, and you save money on other things.
2. _____
When you take a shower, you can shampoo your hair with the faucet closed. You don't need running water when you are brushing your teeth.
3. _____
Have you noticed that your video game console gets hot? That is energy used by the console. If you play outside more, you use less energy.
4. _____
This is a big project, but you can do it! You need the help of your classmates and your (science) teachers. The garden can be in the schoolyard, and you can develop a composting system, too.
5. _____
Does your mom or dad drive you to school every day? Maybe a classmate can travel with you. It's fun, and you use less gasoline while getting to school on time.
