

# Proper and Improper Fractions

When a fraction has a top number that is greater than or equal to the bottom number it is called an **improper fraction**.

Improper Fraction

$$= \boxed{\frac{9}{4}}$$

Proper Fraction

$$= \boxed{2\frac{1}{4}}$$

**Instructions:** Write the improper fraction and proper fraction for each picture below.

	Picture	Improper Fraction	Proper Fraction
1.		$\frac{6}{3}$	$2\frac{1}{3}$
2.		$\frac{6}{2}$	$3\frac{1}{2}$
3.		$\frac{24}{6}$	$4\frac{1}{6}$
4.		$\frac{16}{8}$	$2\frac{1}{8}$
5.		$\frac{4}{2}$	$2$
6.		$\frac{30}{6}$	$5\frac{1}{6}$
