### The Oceans

Did you know, water **covers** almost 71% of our planet? We call this water ocean.

There are five big oceans: the Pacific, the Atlantic, the Indian, the Arctic, and the Antarctic Ocean.

The Pacific is the **largest** ocean. It has about 25,000 **islands**. The Indian Ocean is the warmest. The Arctic **Ocean** is the smallest.

Oceans can be very **deep** and dark. Some fish even have their own light to help them find food!

People can't swim to the bottom of the oceans, so scientists use submarines to explore those areas.

1. How many oceans around the world?
  - a) 3
  - b) 5
  - c) 7
2. Which ocean is the largest?
  - a) Indian
  - b) Atlantic
  - c) Pacific
3. Which ocean is the warmest?
  - a) Indian
  - b) Pacific
  - c) Arctic
4. Oceans are.....
  - a) very cold
  - b) deep
  - c) deep and dark
5. Why do scientist use submarines?
  - a) because its very fast.
  - b) because its more interesting.
  - c) because they can't swim to the bottom of the ocean.

❖ Read and answer the following questions:-

Hi, my name is Sarah and I live in Canada. In Canada we have four seasons.

In winter it is very cold. It snows a lot, and sometimes it is really windy, too. Sometimes we go skiing or have a snowball fight!

In spring it is a bit warmer than winter, but it is still quite cold. Sometimes, in the morning, it is a bit foggy. We have to be careful when we are walking to school.

Summer is very hot! We love the sunny days and warm temperatures. Sometimes it is rainy, but that's ok. We go swimming in the lake by my house and have picnics in the park.

In autumn the weather starts to get cold again. We have windy and rainy days when we stay at home. The maple trees start to change colour and they look really beautiful. I like the red leaves on the trees.

1. In Canada there are \_\_\_\_\_ seasons.  
a) 2                                      b) 3                                      c) 4
2. The weather is very cold and windy in the \_\_\_\_\_ season.  
a) Autumn                                      b) winter                                      c) spring
3. Sara likes to go \_\_\_\_\_ in the summer.  
a) swimming                                      b) skiing                                      c) walking
4. The weather gets cold again in the \_\_\_\_\_ season.  
a) summer                                      b) spring                                      c) autumn
5. The weather is abit foggy during the \_\_\_\_\_ season.  
a) winter                                      b) spring                                      c) autumn
