

## CÁLCULO DE ÁREAS MEDIANTE LA DESCOMPOSICIÓN DE FIGURAS.

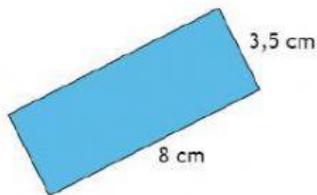

1. Halla las Áreas de estos cuadriláteros

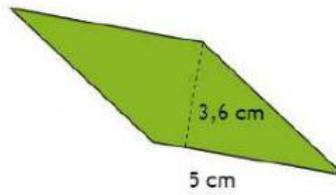

Área =  cm<sup>2</sup>

Área =  cm<sup>2</sup>

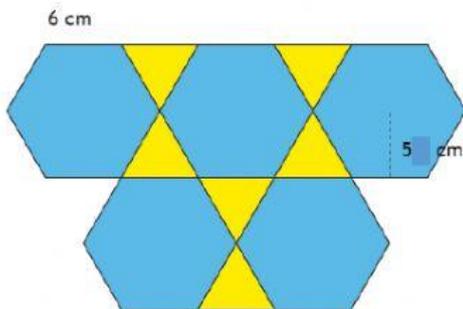

Área =  cm<sup>2</sup>

Área =  cm<sup>2</sup>

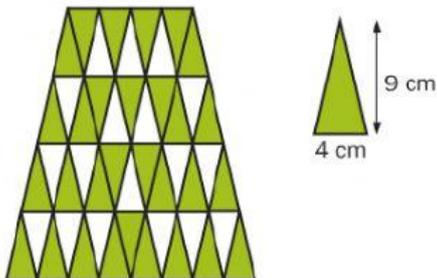

2. Calcula el área de las superficies amarillas. Calcula posteriormente la superficie de la zona azul

Área zona amarilla:

Área zona azul:

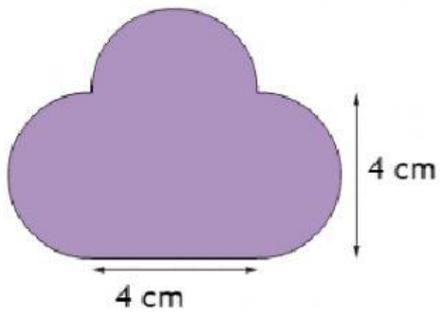

3. Calcula el área de la superficie verde

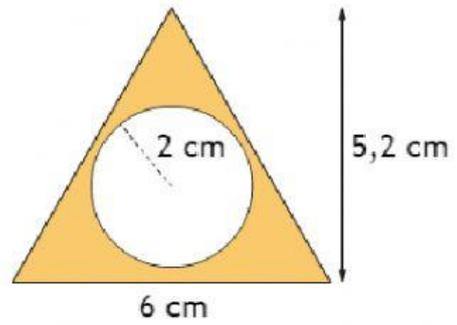

Con todos los triángulos verdes, se puede construir una sola figura ¿De cuál se trata? \_\_\_\_\_

Área zona verde:

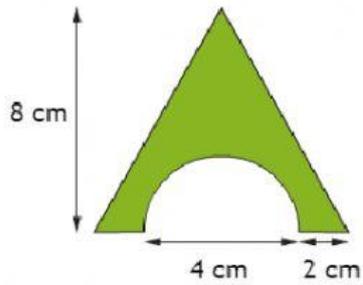

4. Halla el Área de las zonas de color de cada figura
