

# ANIMAL BODY PARTS

Read the descriptions about some animals and match.

Some animals, such as antelopes, have got horns on their heads.

Some animals, like lemurs or lizards, have got long tails.

Elephants use their long trunks to drink water.

We use our arms to carry babies. Some animals, such as kangaroos, carry their babies in a pouch.

Some animals, like owls, have got wings, and they use them to fly!

Some animals, like crocodiles or lions, have big sharp teeth. They look scary!

Polar bears have got white fur, and grizzly bears have got brown fur! It feels soft.

We taste with our tongues and animals taste with their tongues, too! Frogs have got long, sticky tongues!
