Life in Britain

Madame Tussauds

Madame Tussauds is one of the most famous museums in the world. Madame Tussaud was born in France in 1761. She knew lots of important people and made wax models of them.

In 1802, she moved to England. Her wax models were very popular in England, so she started a museum in London.

She died in 1850, but her museum was already very successful. Today, nearly three million people visit the museum every year.

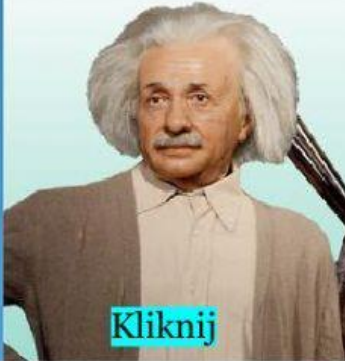

My favourite model is Rihanna.
