Listen and read

3 **Listen and read. Answer the questions.**

Our planet is called Earth. We can live on Earth because there is air around us. Air has oxygen and other gases. All plants and animals need oxygen. They need water too and there is water on Earth. Clean air and clean water keep us healthy, so it's important to look after our planet.

1 Which planet do we live on?

2 What do plants and animals need?

3 Why is it important to look after our planet?
