

Text Evidence

Read the text to answer the questions below

Kites were invented in China 3,000 years ago. The first kites were made out of leaves. Over the years, kites have been used in different ways. For the military, they have been used as target practice, for delivering letters. Kites are also used for weather forecasting, sea rescues and fishing. Kites are still popular today for fun. In the UAE, many people enjoy flying kites in the spring season. More adults than children fly them. Every year thousands of people participate in a festival called the Dubai Kite Festival which is very popular among the people.
