***Here are some words to remind you of what you learnt.***

<b>Nuclear</b>	<b>blood</b>	<b>Reorganized/Blended</b>	<b>adoption</b>
<b>Sibling</b>	<b>Extended</b>	<b>Single-parent</b>	<b>marriage</b>

A family is a group of people living under the same roof,  
who are related to each other by \_\_\_\_\_, \_\_\_\_\_,  
or by \_\_\_\_\_.

There are different types of families. A family can have one parent living with a child or children. This is called a \_\_\_\_\_ family. Another type of family consists of both parents living with a child or children. This is called a \_\_\_\_\_ family. A family that has grandparents or other relatives living with parents and children is called an \_\_\_\_\_ family. Sometimes, there can be a situation where both parents are absent, and an older child has to take care of the younger ones. This type of family is called a \_\_\_\_\_ household. Then there is the situation where a man or woman with children remarry someone else with children and become a new family. This is called a \_\_\_\_\_ family, also known as a Step-family.

Name: \_\_\_\_\_ Date: \_\_\_\_\_

**Exercise 2**

*Instructions: In the boxes below each image, write the type of family that is shown.*
